

Guidance Services

SlimDril's professional Guidance Engineers are able to run **all types** of Wireline Steering tools, including the latest Drillguide gyro steering tool system

Since forming in 1982 and with over 100-years of combined experience in the HDD industry, SlimDril's personnel have been involved with some of the most challenging projects undertaken to-date. All Surveyors and Directional Drillers on staff are trained in the latest technology and are considered some of the best in the industry. When combined with SlimDril's proven downhole tool technology, these experienced personnel offer the Customer a high degree of confidence and professionalism.

All Engineers are fully trained and have a minimum of 5 years field experience in drilling all over the world and are fully familiar with AutoCAD and HDD specific software

Post Job As drilled reports are available in AutoCAD

SlimDril have steering tools, Gyro scopes, land survey equipment, GPS systems, Non magnetic drilling assemblies, Jetting tools available for rental or purchase.

Engineers are available for engineer only jobs as well as with guidance equipment
