

HDD Drill Wire

SlimDril's HDD wire provides reliable electrical signals from the steering tool during the directional drilling process.

SlimDril's specially selected 7 strand wire is well renowned as being the best wire in the industry for HDD, with its special extra thickness insulation. Whether you using a cable sonde, Paratrack tool, Tensor tool or Gyro, SlimDril wire is the best in the business.

SlimDril's cable is also extensively used as Tracer cable that's pulled in with product pipes and used to verify the position at a later date.

SlimDril HDD wireline is available in 10AWG/6mm² and 8AWG/10 mm² in lengths 305m

SlimDril's HDD wireline has a breaking strain of over 140 kg's!
